

Flexible Payroll Reporting and Payment Options

Find the payroll reporting and payment option that works best for your business

We make it easy to pay your premium and report your payroll. If your base premium is \$5,000 or more, you can choose either of these two convenient options.

1. Monthly Payroll Reporting (preferable if your payroll fluctuates throughout the year).

With this option, you'll:

- Pay your premium monthly with your payroll report

2. Stipulated Billing (preferable if your payroll is consistent month to month).

With this option, you'll:

- Report payroll twice per policy term
- Pay your premium in monthly installments

Online payment and payroll reporting options are available at www.StateFundCA.com.
